2015 City Budget Summary

With the Governor and State Legislature continuing to make significant changes to the way the State distributes tax revenue to cities, schools and counties and the subsequent reactions from the citizenry, particularly in terms of taxes, has presented a major challenge to Glendale and all communities in preparing a budget that strives to maintain essential city services, but at no additional costs. In addition, the nation as a whole, continues to recover slowly from the economic recession. Some people remain unemployed, home foreclosures have slowed but still continue, and there appears to be little change in wages in the private sector. The recession continues for many people. Residential property values continue to slightly decline, and yet there are some minor inflationary increases that affect all consumers, including the City. Having to meet these challenges, and yet find the necessary resources to meet these challenges and responsibilities with less revenue, continues to be the story of the 2015 City budget.

In preparing the budget, attention was given to the declining revenue picture. Revenue from the State shared revenue, State transportation aids, recycling financial assistance, and other revenues from the State, were cut significantly in 2012 due to the State budget deficits and have not been restored. In addition, the City’s ability to increase revenues has been limited by both the State Legislature, as well as the national economy. In addition, there has been a State Legislative proposal which, if adopted, would significantly reduce the amount of hotel room tax the City now uses to reduce the tax levy.

(continued on page 2)
2015 City Budget Summary
(continued)

With non-property tax revenues declining, expenditures are, unfortunately, in many cases, increasing. The City, like all homeowners, will be facing the increased costs of electricity, gasoline, natural gas and insurance related items. Labor costs, which comprise over 80% of the City’s Operation and Maintenance budget, continue to be problematic for the budget.

In addition to these financial challenges, the Governor and State Legislature have continued a tax levy freeze for 2015. Property tax levies are not permitted to be increased from what they were a year ago, with some minor exceptions such as debt service and the rate of net new construction, which for Glendale was 0.37%. The City participates in the State’s voluntary expenditure restraint program. This restrictive expenditure program enables the City, if it chooses to participate, to receive an annual incentive payment as a reward for holding expenditures in the general fund at or below the levels from the previous year adjusted by inflation. The City will continue to participate in this program in 2015, and as such, we anticipate receiving approximately $340,000 from the State, the same as this year.

In order to comply with the State mandates, and yet provide essential City services without resorting to any new fees for services required, the proposed budget is essentially balanced by decreasing employee costs. This has been accomplished through limited wage freezes, reduced benefit levels, greater employee contributions for fringe benefits, and not filling several vacant police officer positions, as quickly as they should.

One area that the City takes great pride in is its annual Capital Improvement Program. Projects for the 2015 Capital Improvement Program are listed on page 3 of the Winter newsletter.

The 2015 budget for operations and maintenance totals $12,777,645, an increase of $39,743, or .05% from the 2014 budget. The total City budget, without TIF but including Debt Service and Special Revenue Funds, is $18,986,977, an increase of $250,034 from the current year.

The tax levy will be $12,198,078, an increase of $37,087 or less than 1%.

Winter Parking Regulations

Glendale’s winter parking regulations take effect on December 1, 2014. No parking is allowed on any street between the hours of 2:00 a.m. and 6:00 a.m. from December 1 through March 31. All 2014 parking permits will expire on December 1, 2014. If you have an emergency parking consideration, please call (414) 228-1753 with your request.

STREET LIGHTS

If you notice a street light that is not working, please call City Services at (414) 228-1710. Please include the address location and whether the light is completely out or flickering.

Find the City on Facebook

For up to date information on emergencies, events, and City business, find City of Glendale Wisconsin on Facebook.
CHRISTMAS TREES

Place out with your trash on your regular collection day. Trees longer than 6 feet must be cut in half. The last pick-up day will be January 23, 2015. Place trees in the same location as your garbage and keep clear of snow banks.

Department of Public Works Yard Drop-Off

City of Glendale residents may drop off flattened cardboard and used motor oil at the Department of Public Works (DPW) yard from 7:00 a.m. to 3:00 p.m. Monday through Friday. Enter the yard from North Glen Park Road on the north end of the DPW building.

2015 Planned Capital Improvement Program

The following Capital Improvement projects are under consideration at the present time. Final approval by the Common Council will take place in February, 2015.

- N. Sunny Point Road Reconstruction (N. Milwaukee River Parkway north to Cul-de-sac)
- Bender Park sewer, water, and roadway
- Public Works Building roof replacement
- W. Civic Drive Reconstruct with Sidewalk to Little League Fields.
- W. Bender Road (N. Milw. River Parkway to N. Green Bay Avenue)
- N. Navajo (Good Hope to Green Tree) replace 4” water main and asphalt resurface
- Street Overtakes
- Liquid calcium tanks - 4 plow trucks
- Emerald Ash Borer Treatments
- Sanitary Sewer Infiltration & Inflow Repairs and Private Property Lateral Repairs
- Milwaukee River Parkway—north of W. Edward Ln.

City of Glendale Newsletter | Winter 2014-2015 | 3
PROPERTY TAX COLLECTION PROCEDURE

Tax bills are being forwarded to the OWNERS of property in the City of Glendale. If you are not the owner of the property described on the bill you receive, please forward it to the owner or return it to the City Treasurer’s Office. For any properties sold or titles transferred after November 1, 2014, we will make every attempt to forward current tax bills to new owners.

Procedure for sending bills directly to PROPERTY OWNERS has been adopted for the following reasons:

1. The PROPERTY OWNERS will know the amount of their current taxes.
2. The Treasurer’s Office will be able to mail bills at an earlier date.
3. Those desiring double tax payments in a calendar year (for income tax purposes) are assured of prompt receipt of statements.
4. Property Owners will be able to determine amounts available for payment of real estate taxes in tax escrow accounts (where applicable).
5. This allows adequate time for the taxpayer to instruct the proper lending agency as to special requests for payment of the tax bill (e.g., prior to December 31, installment payments, etc.).

Payments may be made to the Treasurer’s Office in person or by mail. TO AVOID STANDING IN LINE, A SELF-ADDRESSED ENVELOPE WILL BE ENCLOSED WITH YOUR TAX BILL, FOR YOUR CONVENIENCE. You may also use the permanent collection receptacle located at the front entrance to City Hall. BE ASSURED THAT A TAX RECEIPT WILL BE MAILED TO YOU THE NEXT BUSINESS DAY. The drop box may also be used for all types of other payments due the City, including sewer/water bills, invoices, etc.

FULL PAYMENTS are due January 31, 2015. Installment payments are due January 31, March 31, and May 31, 2015 respectively.

MAKE CHECKS PAYABLE TO: TREASURER, CITY OF GLENDALE

The three installment plan is an option for payment of taxes. Special charges, i.e. delinquent water/sewer bills, weed cutting, street improvement charges, etc., are not eligible for the installment plan and are due January 31, 2015 along with the first installment.

All payments made on or before the due date, as well as any delinquent payments made through July 31st, are to be made to the TREASURER, CITY OF GLENDALE. Delinquent payments made after July 31st are payable to the Milwaukee County Treasurer.

MARK YOUR CALENDAR TODAY so you are not late for an installment payment. NO OTHER NOTICES WILL BE SENT. The postmark governs the date of payment - NOT the date on your check.

If you are paying the bill in person and require more than a few dollars change over the amount of your taxes, refund will be made by check.

Your CITY tax is the only amount controlled by the Mayor and Common Council. Any questions about this tax should be directed to the City Treasurer’s Office at (414) 228-1701. All other taxing jurisdictions control their own tax levy. Questions should be directed to each of these jurisdictions regarding their taxes.

Electronic Devices

Beginning September 1, 2010, Advanced Disposal Services will charge $25.00 to pick up televisions, VCRs, DVDs, DVRs and other video players and fax machines, due to the new electronics recycling law. Advanced Disposal will not pick up computers.

Residents can take electronics to designated recycling centers. Milwaukee County collection sites for recycling electronics include Best Buy stores and Goodwill. For a full list of collection sites, visit the Wisconsin Department of Natural Resources website at:

http://dnr.wi.gov/ecyclewisconsin

Replace your Smoke and Carbon Monoxide Alarms

Sometimes, simply replacing a battery is not enough. Age and environmental conditions can affect the operation of smoke and carbon monoxide detectors. There are actually expiration dates on the back side these devices. If your device does not have an expiration date, it means it is more than 15 years old.

*Smoke detectors have a 10-year lifespan

*Carbon monoxide alarms have a 7-year lifespan

Carbon monoxide detectors should NEVER be exposed to freezing conditions. If your devices are beyond their listed lifespan, they may not provide the proper level of protection and should be replaced IMMEDIATELY.

(*May vary slightly based on manufacturer.)
Ensuring Safety This Holiday Season

As we delve deeper into the winter months and we gather to celebrate the holiday season with family and friends, North Shore Fire/Rescue would like to remind everyone of some safety tips that will help to make sure your celebrations are enjoyable, yet safe.

According to the National Fire Protection Agency (NFPA), almost half of all home decoration fires are started by candles. December is the peak time of the year for candle-involved fires. Numerous flameless candle options are on the market. Several of these options use LED type lighting that provides lighting similar to a real candle but use very low energy and have an extremely long life on a single battery charge.

Similar to the dangers from using real candles, decorating with a real Christmas tree can prove deadly. The NFPA says that although Christmas tree fires are not common, on average 1 in every 40 Christmas tree fires is fatal. In comparison, only 1 in every 142 house fires is deadly. Trees should always be kept at least three feet from any heat source, including: heat vents, candles, space heaters and fireplaces. It is important to always ensure your tree is well watered and that you dispose of the tree shortly after the holiday or when it starts to dry out.

When welcoming guests to your home, ensure they know your home escape plan in the event a fire should occur while they are visiting. Ensure that matches and lighters are secured away from any children that may be visiting and curious about searching through a new environment. Always ask smokers to smoke outside and well away from the house. Provide deep ashtrays or containers made of metal filled with water for the disposal of any smoking material.

Remember to test your smoke alarm monthly and be sure to have a detector on every level of the home and inside and outside of every sleeping area. From all of us at North Shore Fire/Rescue, we wish you and your family the happiest of holiday celebrations and a Happy New Year. We look forward to sharing more safety tips and information with you in 2015!

For more information, call the North Shore Fire Department at (414) 357-0113 or visit their website at www.nofire.org. Also, be sure to follow them on Facebook and Twitter.

Coming in February 2015
Residential Automated Refuse Collection System

Starting in February of 2015, the City of Glendale will implement a fully automated solid waste and recycling collection system for residential properties (single family, duplexes, and up to four family dwellings). A fully automated refuse collection system will provide each residential unit with two 96 gallon wheeled carts; one to be used for solid waste, and the other to be used for recyclables. The weekly collection schedule will not change.

In late January, each eligible residential unit will receive their two wheeled carts at no cost from Advanced Disposal Services.

Changing to a fully automated system will reduce City costs, and hopefully, improve participation in the recycling program. Residents will be required to put all their refuse into the cart and to wheel their respective carts to either the street or alley, depending upon current collection locations.

A Special Newsletter regarding the fully automated collection process will be mailed to all affected property owners in early January 2015, with most often asked questions and answers. In addition, the information will be posted on the City’s website.

In the meantime, if there are any questions regarding the implementation of this new system, please call the City Services Department at (414) 228-1710.

Fourth of July

The Fourth of July Committee needs you! They are in the midst of planning for the 2015 Fourth of July Celebration and are looking for dedicated individuals to help make the community festival a success. Please contact them at july4thglendale@gmail.com.

Income Tax Reminder

Remember that each citizen should use GLENDALE, WISCONSIN 53209 (west of river) or 53217 (east of river) as their mailing address. This is important when filing Income Tax Returns, Auto and Truck License Registration Forms and Application for Property Fire Insurance, as the City receives a portion of the amount you paid as "Shared Taxes." By adding Glendale, you will avoid paying a $20.00 per vehicle wheel tax to the City of Milwaukee.

The City receives this "shared tax" payment ONLY if you indicate your residence as GLENDALE. A very significant share of your City Government is paid by "Shared Taxes."

When filling out State Income Tax forms, the numerical codes for the school districts are as follows:

Glendale-River Hills - 2184
Maple Dale-Indian Hills - 1897

Advanced Disposal Services (the City’s refuse collector) will collect brush and yard waste every other week from March 23 through November 13, 2015 (see calendar schedule on page 10). Residents who need to dispose of brush or yard waste in the winter months can schedule a pick-up from Advanced Disposal for a fee. The cost is $30.00 for two cubic yards and $10.00 for any additional cubic yards. (Note: One yard of yard waste equals one (1) trash can).

To schedule a pick-up and make payment arrangements, call Advanced Disposal Customer Service at (262) 679-0860.

HELP PROTECT YOUR FAMILY & HOME

With a home security system monitored by ADT professionals 24 hours a day, 7 days a week. As an added benefit, installing a Security System may qualify you for a Homeowners Insurance discount.

Federally insured by the National Credit Union Administration
SNOW REMOVAL PROCEDURES

Based upon the expected snowfall this season, we wish to remind you of the City’s long-standing snow removal and salting policy.

Normally, the City does not plow streets unless the total accumulation of snow is 3 or more inches. Anything less is typically covered by salting operations.

Salting operations commence generally at the request of the Police Department or at the determination of the City Services Director based upon weather conditions.

Major thoroughfares have first priority. The City does not have a “bare street” program for residential areas. In other words, for residential streets, salting is typically reserved for intersections, hills, mid-blocks and curved roadways.

As much as many people would like, it is impossible for the City to schedule snow removal times to coincide with their respective snow shoveling or snow removal from their driveways. Plowing streets inevitably will put snow on property owner’s driveway approaches. There is no other way to plow snow.

If possible, all major thoroughfares will be plowed and salted by morning. Residential side streets will not be completed until the major streets are completed.

As a reminder, the City does not plow or maintain County or State highways located within Glendale. Those streets include North Green Bay Avenue north of West Good Hope Road, West Good Hope Road from North Port Washington Road west to the City limits, West Mill Road, North Milwaukee River Parkway and North Port Washington Road from West Daphne Road north to the City limits.

The City’s 10-person Public Works Department will do all that is humanly possible to clear all City streets in a timely fashion. Remember, we no longer contract for City street snow removal. All snow plowing, with the exception of alleys, is done by Public Works employees.

Property owners who have sidewalks will receive a reminder notice of their responsibility to remove snow and ice from their sidewalks. The City is responsible for snow removal on sidewalks that are located adjacent to or on bridges, railroad right-of-ways, and by agreement with Milwaukee County, the sidewalk on North Green Bay Avenue from West Mill Road north to West Green Tree Road.

Please have the appropriate amount of patience and understanding required in this type of climate, with the Public Works Department.

DOG AND CAT LICENSE FEES

Dog and Cat License renewals for 2015 will be mailed by the Milwaukee Area Domestic Animal Control Commission (MADACC) in December. All dogs and cats over five months old are required to be licensed. A total of no more than three dogs or cats per residence are legal without first obtaining a kennel license.

Fee Schedule for Dog and Cat Licenses:

**DOG LICENSES:**
- Male or Female: $24.00
- Spayed/Neutered: $12.00

**CAT LICENSES:**
- Male or Female: $24.00
- Spayed/Neutered: $12.00

Late Fees effective April 1, 2015:
- Male or Female: $12.00
- Spayed/Neutered: $ 6.00
Holiday Trash Collection

As a reminder, residents should place garbage cans at a safe distance up the driveway during the snow season so the cans are not hit by snowplows or snowload from the plows during plowing operations. Any garbage cans that are placed in the road may be hit and it will be the responsibility of the homeowner to replace if damaged.

Please call Advanced Disposal Services Customer Service at (262) 679-0860 for questions
Phone Scams Targeting Wisconsin Residents

The Consumer Hotline at the Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) is lighting up with questions about fraudulent telephone calls. Thankfully, most consumers are calling to inquire about the scam attempts, not to report that they have been victimized. DATCP asks consumers to be on the lookout for requests for payments, personal information or access to their computers during unsolicited calls.

DATCP has recently seen a spike in inquiries and complaints about fake Internal Revenue Service (IRS) phone calls (both “live” calls and robocalls). In this pervasive nationwide scam, a caller falsely claims to represent the IRS and warns the call recipients that they are behind on taxes and must make an immediate payment to avoid arrest or legal actions. After threatening victims with jail time, deportation or driver’s license revocation, scammers may hang up and call a second time claiming to be with the local police or DMV. Spoofed caller ID information will often support this claim.

The IRS has issued two separate warnings to taxpayers this year about these operations, and federal agencies have identified more than 1,000 victims nationwide who have lost an estimated $5 million in these tax scams. If you receive a similar call, remember:

- The IRS NEVER asks taxpayers to pay their tax bill using prepaid debit cards, credit/debit cards or wire transfers over the phone.
- If the IRS contacts a consumer about unpaid taxes, they do so by postal mail, not by phone.
- Do not be fooled if your caller ID displays “IRS” or the agency’s toll-free number.
- Scammers may be able to recite the last four digits of a victim’s Social Security number.
- Scammers sometimes send bogus IRS emails to victims after an initial call to support their scam story.
- If you receive a threat by robocall, hang up and do not press any buttons during the call.

Consumers are also reaching out to DATCP about other recent phone-based scams, including:

- **“Card Services” robocalls.** An automated caller claims that you can receive a reduced rate on your credit cards using their services. These operations are a national nuisance and nearly everyone has received at least one of these calls at some point. If you receive this robocall, hang up without pressing any buttons.

- **Tech support for a “virus” on your computer.** A caller who falsely claims to be with a tech support company (typically Microsoft) will tell you that you have a malicious virus on your computer. In order to remove the virus, the caller will ask you to turn over access to your computer using an online program, giving them full control over your system and putting your files and personal information at risk. They will also require a credit card to process a payment for their “services.” Hang up immediately if you receive a similar call – regardless of what the so-called “technician” says about any codes or files they claim to find on your system, they do not know about a problem with your computer and the operation is a scam.

- **Lotteries and contests.** A caller falsely claims that you have won a major prize (often an international lottery or Publishers Clearing House sweepstakes) and requests that you send them payment for taxes or shipment of your winnings. Never pay a fee to claim a “free” prize.

Again, please remember that a request for money, personal information or access to your computer from an unsolicited caller is a scam. Hang up the phone, do not press any keys during the call and do not engage the caller in any way.

For additional information or to file a complaint, visit the Consumer Protection Bureau at http://datcp.wisconsin.gov, send an e-mail to datcrophotline@wisconsin.gov or call the Consumer Information Hotline toll-free at 1-800-422-7128.
It’s easy to think that thieves go after those bright, flashy, and expensive cars like BMWs, Mercedes, and sports cars of any make and model. You might even think your old beat-up car is immune to theft. But in reality, your old car that is worth only a few thousand dollars is much more likely to be stolen than your neighbor’s new, expensive model and here is why. Understanding why older cars are stolen more often can show you ways to protect yourself from becoming a victim of vehicle theft.

The Appeal of Older Cars

- To car thieves, newer cars can be more trouble than they’re worth (or practically impossible to steal) because they generally have more advanced security components. Also, some cars have “smart key systems” that make it so they simply won’t start without the right ignition key.

- Since older cars did not come standard with the same level of security, it can be much easier for thieves to steal them.

- Furthermore, most thieves are not really looking at the car itself, but at the car’s parts. In this way, old cars can provide a lot of value. A thief can make much more money by selling the parts of an older car than you could make by selling the entire car to a buyer.

- Many thieves are juveniles between the ages of 13 and 17 and steal older cars because they want to “joy ride” (stealing a vehicle for their personal use). Many older vehicles still have steering wheel columns that can be manipulated making the car easily to start.

## Top 10 Stolen Cars in Wisconsin

- 2000 Dodge Caravan
- 1994 Honda Accord
- 1995 Honda Civic
- 1999 Dodge Intrepid
- 1994 Plymouth Voyager
- 1994 Chevrolet full-size pickup
- 1997 Ford Taurus
- 1994 Oldsmobile Cutlass/Supreme/Ciera
- 1998 Pontiac Grand Prix
- 1995 Toyota Camry

## Prevention Tips

- Use a car alarm to deter theft.
- Use a tracking system.
- For vehicles older than 2005, consider a steering locking device.
- For vehicles 2005 and older, try tools that prevent theft, such as a smart key system or a steering column collar.
- Park in well-lit areas.
- Always lock your car and take the keys!

National Radon Awareness Month

It is well known that the main cause of lung cancer is smoking. However, what many people don’t know is that the leading cause of cancer among non-smokers is exposure to radon in the home. Radon is a colorless, odorless, radioactive gas. It forms naturally from the decay of radioactive elements which are found at different levels in soil and rock around the base and under the home. The radon gas given off by soil or rock can enter buildings through cracks in floors or walls, construction joints, or gaps in foundations around pipes, wires, or pumps. Radon levels are usually highest in the basement and in the winter months due to windows and doors being closed that would otherwise help to vent the gas. Therefore, it is best to test in the winter months!

Given the fact that January is National Radon Awareness Month, it is important to make people aware that testing radon levels in their home can help prevent unnecessary exposure. The U.S. Surgeon General and Environmental Protection Agency (EPA) recommend that all homes be tested for elevated radon levels. The EPA recommends that homes have a radon level of less than 4 pCi/L, however no level of radon is considered safe.

Testing for radon is not difficult or expensive. Currently, radon test kits are available at the North Shore Health Department for $5.00 as part of a radon grant. If radon is detected, the next step is to do the 90-day test, which costs $10.00 at the Health Department. A second test, either a repeat short term test or the long term 90-day test is highly recommended before spending any money on mitigating radon.

Each house should be tested as the outcome is not determined by a neighbor’s results. If the result is high, steps can be taken to fix the problem. Please contact the North Shore Health Department at (414) 371-2980 if you would like to pick up a test kit or for further information on radon. Additional radon information can be found at:

Snow, Ice & Sidewalks
Shoveling for Safety

All property owners are reminded that Glendale City Ordinance requires all public sidewalks and curb ramps to be kept clear of snow and ice.

Sidewalks and curb ramps must be clear of all snow and ice within 24 hours from the time snow ceases to accumulate.

After each inclement weather event, the City will inspect all sidewalks and curb ramps to ensure they are safely passable.

If a sidewalk or curb ramp is not safely passable, a notice may be posted or otherwise placed at the property indicating the need to comply with the snow and ice removal requirement within a specified time.

Upon re-inspection, any sidewalk or curb ramp not properly cleared will be cleared by the City with all costs and expenses, including administrative fees and/or ice and salt/sand costs charged to the property owner or manager as a special assessment.

Residents are also asked to help keep area fire hydrants cleared of snow to allow easy access in case of a fire.
